B2B SaaS sales development professional with 8+ years of experience across outbound prospecting, qualification, discovery, demonstrations, and pipeline generation. Generated \$4M+ in qualified pipeline, contributed to approximately \$700K in closed business, and achieved 150% annual quota attainment. Built and launched an AI-powered outbound platform from concept to paying customers.

CAREER

2026–Present **FOUNDER & GTM LEAD**

MeetingScheduled — AI Workflow & Outbound Automation Platform

- Built and launched an AI-powered GTM platform combining prospect identification, research, data workflows, and automated personalized outreach.
- Took the product from concept to a live system with paying customers, covering requirements, product and workflow design, development, deployment, onboarding, and iteration.
- Built reliability and safety controls for customer-facing AI, including human review, claim validation, and controlled execution. One of the first paying customers was acquired through the platform itself.
- Designed and connected data, research, outreach, follow-up, and pipeline workflows into one system, replacing fragmented manual processes with structured automation.

2024–2025 **Independent Sales Development Consultant**

EpoX.ai, RampedUp, Twingo.co.il, SingleStore.com

- Advised B2B companies on sales development strategy and execution, from ICP definition and positioning to outbound and pipeline generation.
- Worked directly with founders and SDR teams on market entry, messaging, cold calling, email marketing and LinkedIn outreach
- Designed and implemented GTM automation workflows covering prospect identification, research, outreach, follow-up, and pipeline management.

2021–2023 **Senior Enterprise SDR**

Incredibuild — Developer Acceleration Platform

- Generated \$2.9M in pipeline, contributed to approximately \$600K in new ARR, and maintained 150% quota attainment over a full year.
- Built enterprise pipeline across gaming, automotive, and fintech through industry events and value-led outbound focused on technical impact and cloud cost optimization.
- Booked meetings with CEOs, engineering leaders, and IT executives.
- Led initial discovery conversations with engineering and IT leaders, articulating the business value of shorter build times and more efficient use of existing compute resources through distributed processing.

TECHNICAL & SALES ENABLEMENT

- Sales Tools: Salesforce, HubSpot, LinkedIn Sales Navigator, Outreach, ZoomInfo, Lusha, ContactOut, Instantly,
- Team Enablement: SDR onboarding, call coaching, qualification standards
- Sales Operations: Playbooks, pipeline reviews, SLA alignment
- Reporting & Analytics: Salesforce dashboards, KPI tracking, conversion analysis

GTM & SALES

- 0→1 GTM execution, including ICP definition, positioning, messaging, market entry, and customer discovery.
- Outbound strategy, full-cycle sales, pipeline generation, and SDR coaching.

EDUCATION

Studies in International Business Administration, Lauder Business School, Vienna
